

SUFFUSION™ LIQUID

SPECIMEN LABEL

An Effective Blend of Surfactants for Use on All Types of Growing Media in Nurseries, Greenhouses, Interior Plantscapes and Soil Production

ACTIVE INGREDIENT: 100% Alkoxyether surfactants (A Non-Plant Food Ingredient)

KEEP OUT OF REACH OF CHILDREN CAUTION / AVISO

FIRST AID	
IF IN EYES	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.• Remove contacts lenses, if present, after the first 5 minutes, then continue rinsing eye.
IF SWALLOWED	<ul style="list-style-type: none">• Call a poison control center or doctor immediately for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by the poison control center or doctor.• Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15 to 20 minutes.
In case of emergency call toll free the OHP, Inc. Emergency Telephone No. 1-800-356-4647. Have the product container or label with you when calling a poison control or doctor, or going for treatment.	
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.	

PRECAUTIONARY STATEMENTS

- Causes irritation to eyes and skin. Harmful if swallowed. Avoid breathing vapor or mist.
- Do not apply this product in a manner as to directly or through drift, expose workers or other persons.
- Applicators and other handlers of the product must wear: Goggles or facial splash shield, chemical resistant gloves, such as nitrile rubber or neoprene rubber, coveralls or long pants, long sleeved shirt, shoes and socks.

GENERAL INFORMATION

IMPORTANT: Read the entire DIRECTIONS FOR USE, GENERAL INFORMATION AND LIMITATION OF WARRANTY AND CONDITIONS OF SALE before buying or using this product.

Suffusion is an effective blend of surfactants for use on all types of growing media in nurseries, greenhouses and soil production.

Specifically developed to :

- Improve water penetration and retention of optimum moisture levels.
- Give excellent initial wetting and long term re-wetting.
- Assist uniform wetting and drying of the growing media.
- Improve drainage.
- Easily mixed under cold conditions.

DIRECTIONS FOR USE

Suffusion can be:

- Incorporated in the growing media.
- Applied as a drench.
- Used at low rates in the irrigation / fertigation system.

Growing Media Preparation – Incorporation

Production Area	Rate / cubic yard	Longevity Requirements / Growing Media Conditions
Containers, field soil Long-term production cycles	6 fl. oz.	Maximum longevity (9 - 12 months) Severely water repellent media
Pots, hanging baskets Medium term production cycles	4-5 fl. oz.	Medium longevity (3 - 6 months) Moderately water repellent media
Flats, pots, trays Short term production cycles	2-3 fl. oz.	Short term activity (2 - 6 weeks) Slightly water repellent media

Note: There may be variations in longevity under variable growing conditions.

Further applications can be made as necessary during production (see below).

Water Volume

Mix **Suffusion** with water before application.

Apply in 2 gallons of water per cubic yard of growing media.

To achieve an even mix spray as evenly as possible while growing media is blending.

Net Contents: 2.5 gallons (9.5 L) or 30 gallons (113 L)

Growing Media Preparation – Drench

Production Area	Rate PPM	Longevity Requirements/Growing Media Conditions
Containers, field soil balled. Balled and burlap stock. Long-term production cycles.	1000 - 1500 13-19 fl. oz. / 100 gals water	Maximum longevity (6 - 12 months) Severely water repellent
Pots, hanging baskets Medium term production cycles	600 - 1000 8 - 13 fl. oz. / 100 gals water	Medium longevity (2 - 6 months) Moderately water repellent
Flats, pots, trays Short term production cycles	300 - 500 4 - 6 fl. oz. / 100 gals water	Short term activity (2 - 6 weeks) Slightly water repellent

Note: There may be variations in longevity under variable growing conditions.

Prepare the appropriate dilution of **Suffusion** by mixing in water and drench onto soil media surface. Further applications can be made as required.

Under dry conditions increasing the water volume assists the movement of **Suffusion** into the growing media.

Growing media in production — Irrigation

Production Schedule	PPM
Daily Feeding	5
Weekly Feeding	50

Use higher rates if media is severely water repellent and water management is of high priority.

Use a test jar to determine physical compatibility.

Additional Usage Areas

Production Schedule	PPM	
Prior to shipment	500 - 1000	Drench containers, hanging baskets and trays prior to shipment.
Interior plantscapes	500 - 1000	Drench containers, hanging baskets and planters.
Misting cuttings	150	Spray freshly stuck cuttings with a very fine mist to the point of run off.
Dying cut flowers	150	Incorporate Suffusion in the dye solution.
Continuous overhead watering Young plants Established plants	10 - 20 20 - 50	For removal of sitting water on foliage.

It is advised to pre-spray a small selection of ornamental plants if local use experience is unavailable and observe for 3 to 5 days for sensitivity.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store only in original container. Keep container tightly closed. Keep in a safe and locked storage place. Do not allow water to be introduced into the contents of this container. Protect from frost and avoid extremes of storage temperatures.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility.

Container Handling: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

LIMITATION OF WARRANTY AND CONDITIONS OF SALE

Read this LIMITATION OF WARRANTY AND CONDITIONS OF SALE before buying or using this product.

OHP, Inc. warrants that this product conforms to the chemical description on the label and if used in accordance with directions for use, is fit for the purpose referred to. It is impossible, however, to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of OHP, Inc. All such risks are expressly assumed by the buyer.
