BIATHLON®

Ornamental Herbicide

A GRANULAR HERBICIDE FOR PREEMERGENT CONTROL OF GRASS AND BROADLEAF WEEDS IN FIELD AND CONTAINER ORNAMENTALS, GROUNDS MAINTENANCE, AND OTHER SPECIFIED NON CROP AREAS. ALSO FOR EVERGREENS (BROADLEAF AND NEEDLE) LIMITED TO CHRISTMAS TREE FARMS AND CONIFER FARMS.

Product Information Bulletin

180

GENERAL INFORMATION

Biathlon is a combination herbicide containing two selective active ingredients that provide a broad spectrum of weed control with very good plant tolerance on ornamentals.

Biathlon contains 2.0% oxyfluorfen and .75% prodiamine on an engineered granule.

Common Name: Oxyfluorfen and Prodiamine

Class: Diphenylether + Dinitroanaline

GROUP 14 + 3 HERBICIDE

Packaging: 50 lbs. bags

RESTRICTED ENTRY INTERVAL (REI) AND SIGNAL WORD

REI = 24 hours Signal Word = CAUTION

PERSONAL PROTECTIVE EQUIPMENT (PPE)

- Coveralls
- Chemical-resistant gloves made of any waterproof material
- Shoes plus socks

MODE OF ACTION

Biathlon provides weed control by combining two modes of action, inhibition of both microtubule assembly (MOA #3) and inhibition of protoporphyrinogen oxidase (MOA #14). These MOA's result in the inhibition of cell division and disrupting cell wall formation in shoots and roots of emerging seedling weeds. The result is the prevention of weed seed emergence.

USE SITES

Biathlon is registered for use in field and container ornamentals, grounds maintenance and other specified crop areas. It is also labeled for use on evergreens (broadleaf and needle) but limited to Christmas tree and conifer farms.

APPLICATION AND RATES

Biathlon is applied as a broadcast application.

Container Grown Ornamentals

Apply 100 pounds per acre. Thoroughly incorporate granules into the media through watering-in. Apply **Biathlon** prior to weed seed germination. Prior to **Biathlon** application, irrigate with approximately ½ inch of water to firm potting media around newly planted root systems. **Biathlon** may be re-applied in 3 months. Do not apply over 200 pounds per acre per year. For application in the fall, apply two weeks prior to placing plants in an empty, enclosed greenhouse structure.

Field Grown Ornamentals, Christmas tree and conifer farms

Apply **Biathlon** at 100 pounds per acre after planting or in the spring prior to weed germination or weed removal. A maximum of two applications may be made per growing season. For newly planted field crops irrigate with approximately ½ inch of water to settle the soil around root systems. Apply **Biathlon** prior to weed seed germination and to weed free soil. Remove any **Biathlon** granules from foliage or injury may result.

Note: Do not apply to bedding plants, liner production beds, flowers, ground covers, vegetables or turf. Do not apply to wet foliage.

INDIVIDUAL CONTAINER APPLICATIONS

For situations where broadcast application of the product is not appropriate, apply the product uniformly over the entire container surface at the rates in the following table (1 gm **Biathlon**/sq. ft.):

Container Size	Surface Area (Sq. Ft.)	Grams of Biathlon/Container	Volume of Biathlon/ Container
1 gal. (6" diam.)	0.20	0.20	1/8 tsp.
2 gal. (9" diam.)	0.44	0.44	1/4 tsp.
3 gal. (10" diam.)	0.55	0.55	1/4 tsp. (rounded)
5 gal. (12" diam.)	0.79	0.79	1/4 tsp. (heaping)
15 gal. (17" diam.)	1.60	1.60	1/2 tsp.

KEY WEEDS CONTROLLED

GRASSY WEEDS

Annual bluegrass
Barnyardgrass
Crabgrass
Fall Panicum

Treatment of ornamental species not listed on the label for Biathlon

The species listed in the table aside have been tested under actual growing conditions and found tolerant at the recommended application rate. Users who wish to use **Biathlon** on ornamental plant species not listed on the label may determine the suitability for use by treating a small number of such plants at the recommended rate. The user assumes responsibility for any plant damage or other liability resulting from use of **Biathlon** on plant species not recommended on the label.

Injury on the following plant species has been observed following applications of Biathlon and use is not recommended.

Agapanthus Ageratum 'Hawaii Blue' Clematis

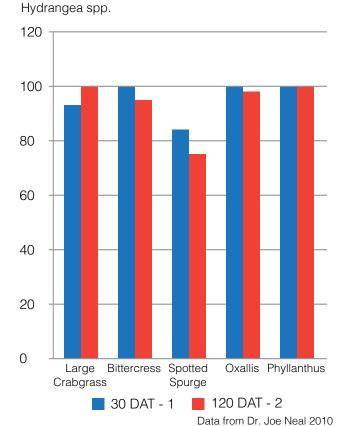

Clematis
'Duchess of Edinburgh'
Dianthus spp.
Echinacea spp.
Erica mediterranea
Euonymus alatus
'Compacta'

'Goldfinger'
Salvia spp.
Scabiosa spp.
'Pink Carnival'
Sarcococca hookeriana

Petunia spp.

Potentilla fruticosa

humilis Zinnia spp.
