

TERRAZOLE® 35 WP

An American Vanguard Company

Turf and Ornamental Fungicide

AN EFFECTIVE SOIL FUNGICIDE FOR PREVENTION AND CONTROL OF DAMPING-OFF, ROOT ROT AND STEM DISEASES CAUSED BY PYTHIUM AND PHYTOPHTHORA SPECIES IN ORNAMENTALS AND TURF.

Product Information Bulletin

950

GENERAL INFORMATION

Terrazole® is an effective soil fungicide for prevention and control of soil borne diseases caused by Pythium and Phytophthora species.

Terrazole is a 35% wettable powder formulation of the active ingredient etridiazole.

Common Name: Etridiazole

Class: Thiadiazole fungicide

GROUP	14	FUNGICIDE
-------	----	-----------

Packaging: 2 pound bag, 6 per case

RESTRICTED ENTRY INTERVAL (REI) AND SIGNAL WORD

REI = 12 hours

Signal Word = DANGER

PERSONAL PROTECTION EQUIPMENT (PPE)

- long sleeved shirt and long pants
- chemical-resistant gloves made of any waterproof material
- shoes and socks
- protective eyewear

MODE OF ACTION

Terrazole works by inhibiting lipid peroxidation. **Terrazole** works both as a curative and as a preventative fungicide. For best control, apply **Terrazole** when disease symptoms first begin.

USE SITES

Terrazole may be used on ornamental plants grown in commercial greenhouses, nurseries, golf courses (tees and greens).

APPLICATION RATES

Terrazole may be applied as a drench on ornamentals or as a spray to turf.

Ornamentals:

Terrazole: Apply 3.5 -10 ounces per 100 gallons over area to be treated. See label for more details on application drench volumes for bench or potted plants.

Turf:

Apply 2 - 4 ounces per 1000 square feet in 2 to 5 gallons of water. Applications may be repeated at 10 - 14 day intervals. Not for use in California.

Note:

The mixture of **Terrazole** and water should be continuously agitated to assure uniform applications.

KEY DISEASES CONTROLLED

- Pythium blight
- Pythium damping off
- Pythium spp.
- Phytophthora

TANK MIXING

Tank mixing is permitted with **Terrazole**. For broader spectrum disease control **Terrazole** can be tank mixed with **Terraclor®** or **OHP 6672™**. Growers should test for compatibility and make sure to follow all directions and precautions on labels prior to application.

RESISTANCE MANAGEMENT:

Use the following chart to develop a resistance management strategy. ✓ = labeled
